

# Standard Academic Program Approval Process<sup>1</sup>

<sup>1</sup> This flowchart provides a generalized school approval process. Each school may have slightly different or additional approval steps.

<sup>2</sup> Proposals may require revision or additional information at any step in the approval process. Reviewers and approvers may also require a proposal to rollback to any step in the approval process, or require additional approvals or letters of support.

<sup>3</sup> For departmentalized schools and programs housed with academic departments.

<sup>4</sup> Dual/joint degrees that involve multiple careers/levels have to go through the approval processes for all relevant careers/levels.

<sup>5</sup> Proposals may be referred to the ADPC by the Graduate School Dean or the GWC.

<sup>6</sup> Program implementation may begin even if pending SACSCOC Approval.
